## MISSHOOD FOUND IN IDAHO TOWN

Woman Who Married "Lord Douglas" Is Located by Her Parents.

[Special to The Times-Dispatch.] Asheville, N. C., November 18.—Married four years ago at New Iberia, La., to a man claiming to be a wealthy Englishman named A. Cavendish, but later was shown to be a noted bigamist operating under the name of Lord Percy Sholto Douglas, and since then married as dead by her parents, who have not heard a word from her, Miss Josephine Hood, formerly a beautiful society girl of Asheville, has been located at Coeur d'Alene, Idaho.

The tracing came through a letter written to Harold Lorick, of this city, by Mrs. Cabell Hall, whom he had known some years ago at Salem, Va., and who now lives in Coeur d'Alene. The letter stated that Mrs. Hall had placed Lorick's photograph with others on a bureau of her home, and that the bureau was so near the hall that those passing could see it, and so it happened that a woman passing when the door was opened stopped and examining the picture said it was Mrs. Lorick's, and that she had known him in Asheville, adding that her name was Josephine Hood. As Mrs. Hall knew nothing of Miss Hood's marriage she asked no questions about it, and Miss Hood said nothing about her name, but to still be in Coeur d'Alene.

Cavendish or Douglas married at least eight women in different parts of the country, and at Norfolk, and in most cases he later sought to poison or slay them. After the marriage with Miss Hood he took her to Mexico, where he claimed to have a mine, and the trace of them was lost, although the frantic parents, Captain and Mrs. John B. Hood, had the Mexican government and United States consular service to seek them. It had been generally believed that Cavendish murdered Miss Hood.

## MANY TOPICS FOR SCHOOL LEADERS

Program for Division Superintendents—Cadet Corps May Greet President.

Strong in features for discussion, the Conference of Division Superintendents, a part of the big educational gathering next week, will form an important part of the program. An excellent list of proceedings has been arranged, and the superintendents are taking the greatest interest in the meeting.

Among the papers with their authors are the following: "The Building of a School," by Superintendent G. G. Taylor, of Page; "The Teacher," by Superintendent William G. Payne, of Bath; "The Course of Study," by Superintendent A. L. Terrell, of King William.

"The Consolidated School," "The Principal," by Superintendent J. G. Taylor, of Alleghany; "Transportation," by Superintendent H. Carter Redd, of Hanover; "The School and the Community," by Superintendent J. H. Stephens, of Montgomery; and Superintendent William H. Barkdale, of Halifax; "Emergency Certificates," by Superintendent John W. Brown, of Caroline; Superintendent M. C. Cooley and Superintendent W. G. Reynolds, of Essex.

**Official Relations.** "The Superintendent in His Relation to the County Officials," by Superintendent Frank L. Dunn, of Bland; Superintendent Gary Breckinridge, of Buchanan; Superintendent J. S. Eastman, of Warwick.

"How to Increase School Leavers," by Superintendent William H. Owenby, of Buchanan; Superintendent W. L. Garbee, of Campbell, and Superintendent S. P. Daniel, of Charlotte.

"Compulsory School Attendance," by Superintendent J. H. Johnson, of Augusta; Superintendent Hugh A. Bird, of Fredericksburg, and Superintendent W. A. Thompson, of Tazewell.

"The City Superintendent and His Teacher," by Superintendent J. H. Johnson, of Charlottesville, and Superintendent H. A. Hunt, of Portsmouth.

It is possible that the corps of cadets of the Virginia Polytechnic Institute will be in Richmond on Wednesday on its way to Norfolk for the Thanksgiving Day football game. The committee has taken the matter with President Baringer, and the affair may be arranged so that the cadets may add to the attractions of President's Day.

**SAMUEL WALKER DEAD**

Injured With Mr. Dunnington by R. F. & P. Engine at Aen.

Samuel Walker, who was run down by a salting engine of the Richmond, Fredericksburg and Potomac Railroad Thursday night, died of his injuries in the Retreat for the Sick early yesterday morning. One of his legs was crushed above the ankle, the other broken, and there were internal injuries. Soon after the accident he was removed to the hospital, an operation was performed by the railroad surgeon, Dr. W. T. Oppenheimer, who said at the time that his chances for recovery were small indeed. After the accident Walker from time to time was

confirmation of the judgment in Congress of having a lock type canal instead of a sea level. The extent to which the Gatun dam and the locks have been completed has removed from every impartial observer the slightest doubt of the wisdom and the feasibility of the plan adopted.

"This conclusion is further confirmed and clinched by the difficulty occasioned by the slides in the Culebra Cut, which for a canal of 185-foot level necessitated only an additional excavation that could readily be taken care of. Any attempt, however, to sink a canal in Culebra to a depth of 100 feet below the present proposed level would lengthen the time of construction, wear the patience of Americans and leave it an exceedingly doubtful question whether, with the difficulty presented by the Culebra River, such a canal would be possible at all."
